EDT Placements

Paid work placements for school leavers

EDT Placement opportunities enable young people to enhance their skills whilst gaining an Industrial Cadets Platinum Level award, an industry recognised accreditation.

- We build links between young people, educators and industry employers
- Placements available in a variety of STEM companies across the U.K.
- Apply your skills & knowledge in a real work environment
- We are experts in placing and supporting students
- We work with leading FTSE100 companies
- Mentor service provided
- Access to skills webinars
- Accredited by Industrial Cadets at Platinum level

99% **of placement students said their Year in Industry had a positive impact on their career**

EDT Placements is accredited at Industrial Cadets Platinum level

"Year in Industry Placement can change your life and create so many opportunities as well as providing opportunities during the year, also it develops you into a stronger person."

Natyra Jashari - completed a placement at NSG Pilkington

"Felix's legacy is that he has created and delivered a tool for mission planning that far exceeds the technical brief. He has become a truly integrated member of our small development team."

Ben Wilcox /Paul Rose - Managers at Leonardo

Our partner companies include :

LEONARDO · GKN · HITACHI Inspire the Next · SCOTTISHPOWER · RaspberryPi · AVANTI WEST COAST · Viridor

Industrial Cadets | Powered by EDT Pathways to Industry

Carbon Capture - Eco Garden Project

- **Create a garden** that supports the environment and contributes positively to the **fight against climate change.** You'll learn about **carbon sequestration**—the process by which plants, soil, and other natural features capture and store carbon dioxide.
- By the end of this course, you'll have a clear plan for an eco garden tailored to your space.

TinkerCAD Moon Base Project

- Create a **3D design using a CAD program.** Learn how to create a **3D moonbase**, **fit for astronauts,** whilst learning more about the best place to setup a base on the moon.
- By the end of this course, you'll have a clear understanding of how to use a CAD program whilst deepening your understanding of space.

Coding (Scratch) Project

- Develop your digital programme skills by creating games with different levels and functions.
- By the end of the course you'll be confident in creating games and devising new ways of programming.
